

The ADSGI method — from diagnostic to execution

A standardized institutional sequence: each step produces an enforceable deliverable. The file is presented only after full preparation, never before.

HOW A FILE PROGRESSES — THE METHOD IN SIX STEPS

A METHOD, NOT A PROMISE. EACH STEP PRODUCES AN ENFORCEABLE DELIVERABLE.

A rejected file is often a poorly structured file, not an unfinanceable project.

DELIVERABLES · WHY THE METHOD REDUCES RISK

- Enforceable deliverables at every step (diagnostic note, DealRoom)
- Documentary governance: dated, verified, traceable, no reformulation
- Compliance cleared (KYC / AML / UBO) before any presentation
- A single critical signal halts the file before the committee

HOW TO REACH ADSGI

- › Submit a file
- › Request a preliminary analysis
- › Arrange a confidential meeting
